Let's practise: Class Follow-Up 1 : Evaluative Quiz

Opened: Friday, 21 August 2026, 5:00 PM

Due: Friday, 21 August 2026, 10:00 PM

Today you submit a full documentation of your design, development and testing of the sorting visualization application [asked in the first week](#). The documentation will be of codes, modules , module interfaces, build processes (including makefiles) and testing processes (with test cases, if any) and examples of input-output pairs or screenshots. Alongside, you report your effort throughout, along the following lines.

1. **The top level:** the visualization offered by your implementation, including the front end
2. **The base:** the programming languages (or readymade components) chosen for the main task (sorting), I/O, pre and post processing if any, etc.
3. **The manufacturing:** the IDE chosen, the development and testing process (cycle, if cyclic).
4. **The Team:** If you choose to work in a team of more than one, then report the details, roles, onboarding, division of labour planned, actual contributions.

IMPORTANT: each submission must be by an individual student, with the filename "ASGN1-<IDNO>.zip". The report part must be written by each student individually. In your own language.

Submission status

Attempt number	This is attempt 1 (2 attempts allowed).
Submission status	Submitted for grading
Grading status	Not graded
Time remaining	Assignment was submitted 4 hours 22 mins early

Last modified	Friday, 21 August 2026, 5:37 PM
File submissions	 ASGN1-2024A7PS0625G.zip 21 August 2026, 5:37 PM
